

Energy Reading and Foot Reading for healing and Personal growth

With Yair Sagy and Ziza Fernandes Sagy
Cortijo Las Amapolas, Lanjaron, Spain

Ziza Fernandes Sagy, Licensed Reflexologist and Yair Sagy, Licensed Acupuncturist, have been working as therapists, each creating their own unique method which has its origin in 'the mind body connection'.

Ziza specialises in **Foot reading**, while **Yair** works by **diagnosing the Aura** and **Chakras**.

Both methods of healing allow the client to connect to their source of dis-ease and gradually move in-to healing and freedom.

This seminar offers a unique opportunity for *your intuition to lead you*.

You will learn how to *see and know with no doubt, what is happening at this very moment* with your client, friend or loved ones. You will learn to become a channel or a perceptive tool, which can readily absorb the information projected from the other person.

The seminar will cover; the anatomy of the energy body, the mind-body interaction, how to heal the mind, the energy body/physical body, how to balance the energy system using Reflexology and Acupuncture meridians. The above will be taught on a theoretical and practical level, emphasising personal experience and creativity with different materials.
